

Reliability. Versatility. Affordability.

Heavy Duty Performance

In the high grade paper and OCC recycling environments your horizontal baler can make the difference between marginal production and great success. The line of horizontal balers from HJA offer some of the industry's most innovative features designed to insure optimum performance, reliability, and ease of use.

The advanced hydraulics used on the HJA Horizontal Closed Door Baler allow more material to be processed faster with less horsepower. The welded frame constructed with heavy reinforced channel and plate along with the AR400 abrasion resistant alloy steel shear blades provide years of dependable operation.

The HJA horizontal CD line of balers are affordable to buy and priceless to own. See what HJA can do for your operation.

Experienced Manufacturers.

Let us help you solve your recycling problems. Our management team has over 150 years of combined experience in the design and manufacture of balers. Call today to learn more about the complete line of Horizontal Closed Door Balers from HJA .

Performance-based Features

- *Replaceable Wear Components*
- *TEFC High Efficiency Motor*
- *AR400 Abrasion Resistant Alloy Steel Shear Blades*
- *Adjustable Shear Bar*
- *Automatic Cycle*
- *Meets or Exceeds All Current ANSI Z 245.5 Safety Standards*
